In the event of a pandemic emergency that causes our absence from campus for some period of time, the following plans for students should be followed in order to continue instruction and complete course requirements.

1. Students should follow course syllabus assigned reading in text (Huetinck & Munschln). Prepare Reading Journal (summary and reaction) for each chapter.

2. Supplemental readings will be posted on Sakai. Students should download all readings at the first announcement of an outbreak. Prepare Reading Journal (summary and reaction) for each article. All of these readings may not be listed on syllabus, but should be read while you are away from campus.

3. Major course projects should be completed as described in syllabus. These include Math Content Project and Instructional Unit Plan.

4. Due Dates will be flexible. You should attempt to submit them via email or snail mail to my home. If this is not possible, they may have to be turned in when we return to campus.

5. All fieldwork in the public schools, both observations and teaching activities, will be suspended during the emergency. We will discuss conditions in the schools and plan make-up assignments when we return.

Copies of Course Syllabus and Supplemental Readings are located on Sakai: (https://sakai.wfu.edu/portal/) in our course (EDU 354). See Course Information and Course Materials.

You may contact me via email, snail mail, or home phone. See syllabus.
