Airyscan Processing
(Best to do on analysis workstation)

1) Open Zen Black
2) In Processing tab select Airyscan Processing under Method
3) Under Method Parameters select your image
4) If you took a z-stack, set to 3D
5) Try auto first, but you may need to turn up strength up to 0.5 more
6) Press Apply near top of page
7) It may take awhile, blue bar will show progress
8) When complete add scale bar (found under graphics)
